CES OMEGA FLEX - Radio Switch

Technical Data

Product	Radio Switch
Article number	342398V
Online radio frequency	868 MHz
Radio range between URC and locking device	Internal antenna: max. 15m External antenna: max. 25m
Encrypted data transmission	128 Bit/AES
Admissible temperature range	-25 °C to +70 °C
Inadmissible ambient conditions	Not suitable for use in corrosive atmospheres (chlorine, ammonium, lime water)
Rel. humidity	0...95% rH
Power consumption	Max. 3W
Supply voltage	12V-24V DC in accordance with DIN EN 60950-1
Assembly	Wall assembly, surface-mounted, indoors
Protection class	IP20
Cable type	J-Y(St)-Y Xx2x0.6 mm ² preferred Flexible or rigid cables with a cross-section of at least 0.5 mm ² are also admissible

Optional accessories

SMA rod antenna - article number: 248583V

The SMA rod antenna allows you to extend the radio range.
